

KH MOHAMMAD FARHAN

📍 Mangaluru, Karnataka, India | ✉ khmohammadfarhan11@gmail.com | 🔗 LinkedIn | 📄 GitHub | 🌐 Portfolio

PROFESSIONAL SUMMARY

- Motivated final-year **BCA student** and **fresher** seeking an entry-level software developer role to apply hands-on skills in **Full Stack Development**, **AI/ML**, and **Cloud Computing**. Built production-ready applications using React, Next.js, Node.js, and Gemini AI. Certified by AWS, Google, IBM, and Microsoft. Strong in **AI research**, **problem-solving**, and **system planning**. Currently learning **finance and accounting** to expand data analytics capabilities. Eager to contribute, learn, and grow in a professional environment in **UAE, GCC, or India**.

EDUCATION

- Bachelor of Computer Applications (BCA)** 2023 – 2026 (Expected)
Yenepoya University, Mangaluru, Karnataka, India
 - Specialization:** Artificial Intelligence, Cloud Computing, and DevOps
 - Strong foundation in AI research, algorithmic problem-solving, and system architecture planning
 - Self-directed learner pursuing industry certifications in AI, Cloud, and Data Analytics alongside academic studies

TECHNICAL SKILLS

- Languages:** Python, JavaScript, TypeScript, HTML5, CSS3, SQL
- Frontend:** React.js, Next.js, Tailwind CSS, Framer Motion, Zustand
- Backend & Databases:** Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Firebase
- Cloud & DevOps:** AWS (EC2, S3, Lambda), Azure, GCP, Docker, Git, Vercel
- AI/ML:** Google Gemini AI, LLM Integration, NLP, Generative AI Engineering, AI Research
- Analytics & Finance (Learning):** Data Analytics fundamentals, Tally ERP, Zoho Books, MS Excel

PROJECTS

- FreelanceFlow – Freelance Management Platform (Live) · (Code)** 2025
 - Built a complete freelance business system with client/project tracking, automated GST-compliant invoicing, and lead management pipeline for converting prospects into clients
 - Engineered real-time financial dashboards using Recharts for revenue analytics, expense tracking, profit margins, and monthly income visualization with interactive charts
 - Implemented secure JWT authentication with role-based access control, protected API routes, and encrypted session management across the full-stack application
 - Tech:** React.js, Node.js, Express.js, MongoDB, Zustand, Recharts, JWT, REST APIs
- Roamind – AI-Powered Travel Planning (Live) · (Code)** 2025
 - Developed an intelligent travel platform for Indian travelers using Google Gemini AI to generate personalized multi-day itineraries based on user preferences, budget, and travel dates
 - Integrated flight search, hotel booking, local guides marketplace, visa guidance, and automated budget tracking with visual analytics for comprehensive trip planning
 - Built with Next.js 16 App Router, TypeScript for type safety, Firebase for auth and data, and Framer Motion for smooth page transitions
 - Tech:** Next.js 16, TypeScript, Firebase, Gemini AI API, Tailwind CSS, Framer Motion

CERTIFICATIONS

- AWS Solutions Architecture** – Amazon Web Services (Dec 2025)
- IBM Generative AI Engineering** – IBM (Dec 2025)
- Microsoft AI & ML Engineering** – Microsoft (Dec 2025)
- Google Data Analytics Professional** – Google (Oct 2025)
- Google IT Automation with Python** – Google (Oct 2025)
- Additional certifications in Project Management, Front-End Development, and Technology Consulting from Google, IBM, and Deloitte

KEY STRENGTHS

- AI & Problem Solver:** Strong analytical thinking with hands-on AI research experience and ability to break down complex problems into scalable solutions
- Hands-On Developer:** Built and deployed real applications from scratch – from concept and architecture to production deployment on Vercel
